

# What is a computer? *and why?*

First, think of one or two more surprising examples of computers.

- 1.
- 2.

Also, think of one or two more surprising examples of *non*-computers.

- 1.
- 2.

---

What are three traits or characteristics that make something a "computer"?

- 1.
- 2.
- 3.

What are three traits that make something *not* a computer?

- 1.
- 2.
- 3.
