# SCRATCH

Using the Pen 2

# Set pen color!

set pen color to ▢

The set pen color block changes the color of **the line** the sprite draws when the pen is down.

Clicking on the color box will let you choose the color you want from a **palette**.

# Set pen size!

**set pen size to 10**

The set pen size block changes the **thickness** of the line the sprite draws as it moves.  It has 1 variable:

1.  You can change how thick the line is.  A **bigger** number makes a wider line.

# Show and Hide!

**hide**

If you do not want to see the sprite on the stage, use the hide block to make it **_invisible_**. The sprite will still move and draw lines while it is invisible.

If you want to make the sprite **_visible_** again, use the show block.

**show**

Both the show and hide blocks can be found in the "**_Looks_**" tab.
