

Interaction Design—HW 2

September 8, 2021

1. Assume you are to design software that allows a user to arrange 12 different color eggs into an egg carton (in preparation for Easter, maybe?).

(a) What information might you want to know about your target audience?

(b) Describe an interface that doesn't use direct manipulation.

(c) Describe an interface that uses direct manipulation.

2. Give 3 examples of conventions used in mobile applications.

(a)

(b)

(c)
